ODYSSEY

A collection of lighting inspired by celestial bodies, space, dreams, things far and away. 'Odyssey' is a continuous exploration into the intrigues of other worlds.

STELLA

A conical lamp is diffused by a hand-faceted glass disc encased in a perforated brass bezel. This piece is articulated, functioning in dual roles. 'Stella' becomes a reading light when needed, and casts faceted patterns of fractured light and shadows through the lens when positioned as an up light to dramatic effect.

SPECIFICATIONS

Materials: Patinated spun brass.
Hand-faceted glass lens.

Dimensions: 1'-7" H | 6" W | 1'-1.5" D

Wattage: Max. 7.5 watts
