

## PHOENIX ROUND COFFEE TABLE

Phoenix was inspired by the sharp lines and refined elegance of 1970s Italian metal and glass furniture. The contemporary coffee and side tables are made of three beautifully tapered triangular steel legs that cross each other at specific angles to create the base of this elegant, minimalist design. The base of the Phoenix coffee table looks clean and elegant in any of our standard steel finishes, and is made to support a glass top. The legs can also be made in hand-polished Bronze.
