

PAPILLON ROUND DINING TABLE

Inspired by Tom's trip to California's Joshua Tree National Park back in 2016, Papillon encapsulates the California aesthetic. The Papillon round glass dining table is a great addition to a smaller dining room space that needs a pop of colour. It can also make for an eye-catching entrance table for a large hallway.

Available in 4 of our 'Butterfly' colourways, the base of this dining table is powder coated and has an "ombre" effect (the gradual blending of one colour into another).
