

PAPILLON CONSOLE TABLE

The lines and shapes of this unusual and distinctive console table were originally inspired by the boulders of the Joshua Tree National Park. This is an elegant and stylish addition to Tom's statement consoles. Available in 4 of our 'Butterfly' colourways, the base of this console table is powder coated and has an "ombre" effect (the gradual blending of one colour into another). The possibilities are endless with this eye-catching console table – to see all the finish options take a look at our Finishes & Materials.
