

MADISON SQUARE SIDE TABLE

Madison is one of our best-selling side tables. The simple, elegant and classical design can be adapted to suit almost any environment. Madison can easily be tailor made to your own measurements and finished in a selection of our specialist or standard finishes, which can then be combined with clear glass or antiqued mirror glass. You can see all of the finish options [here](#). It is available as a square or a round side table. Madison is part of our hugely popular Aveneues collection. This has become an interior designer favourite as it works in so many different design settings – as at home in a contemporary town house as it is in a traditional country pad. When styled, this table really shines (check out our styling tips [here](#)).
