

JAK CHAIR

New for 2020, the Jak chair is simple, clean, and comfortable. It has a pared back but beautifully elegant profile. It is extremely light (made of aluminium), versatile, and colourful.

“This chair has been in my head and on the drawing board for a while” says Tom “and it finally started to materialise in three dimensions at the end of last year. I wanted to make something very practical, not too formal, but at the same time very smart. I had the twentieth century modernists in the back of my mind – I was thinking of Jean Prouvé’s Standard chair, and the Gio Ponti’s Superleggera chair, both smart and modest. I wanted to make a chair for the twenty first century.”

The Jak chair can be finished in any of our standard or specialist finishes, and is equally elegant upholstered in fabric or leather – our selection of TF leather is a great place to start if you are considering leather upholstery as an option. You can see all of our finish options [here](#).
