

INTERVAL DINING TABLE

Workshop/APD Exclusive

At the intersection of dynamic motion and rest, the interval table features a dual base comprising cast resin forms that seem to rest lightly on one another at either end to support a rectangular or oval wood top, with optional marquetry. A compelling composition formed through the repetition of simple L-shaped legs, the base's components are pinned so their opening angles can be adjusted to suit a range of top sizes and shapes, as well as seating positions. Made to order, the Interval Dining table is offered in Workshop Collection's standard resin and fine wood finishes and is an ideal choice for entertaining and fine dining.
