

MOHAIR VELVET IN THISTLEDOWN

Code: 11137

Application: Upholstery, Curtains, Soft Furnishings

Composition: Pile: 100% Mohair. Overall: 60% Mohair, 40% Cotton

Woven from the finest mohair yarn, Thistledown is a velvet of quiet luxury and remarkable depth. Its long, flowing pile catches and reflects the light with a soft lustre, creating a surface alive with texture and subtle movement. The dense mohair pile rests on a tightly woven cotton base, combining sumptuous softness with notable resilience (100,000 Martindale).

At almost 700 grams per square metre, Thistledown has a generous weight and a beautifully supple drape, ideal for upholstery, curtains, and cushions that call for both presence and refinement. The use of undyed yarn enhances the fabric's natural

R

radiance, while gentle variations in lustre and occasional flecks of darker fibre lend individuality and character. A CFA is recommended. Elegant, enduring, and quietly expressive, Thistledown embodies the timeless appeal of mohair velvet.

Martindale: 100,000
