

TEXTURED LINEN IN SANDSTONE

Code: 11156

Application: Upholstery, Curtains, Soft Furnishings

Composition: 95% Linen, 5% PA

Woven from pure linen yarns of varying thickness, Sandstone is defined by the subtle interplay between coarse and fine threads, creating a surface alive with natural movement and quiet texture. The irregular weave softens the light, revealing layered tonal variations that lend each colour depth and dimension.

At 138cm wide and weighing 970 g per square metre, it offers substance without heaviness - structured enough for upholstery, yet supple enough for drapery and soft furnishings. With a Martindale of 100,000 and a discreet performance coating, it combines exceptional durability with resistance to everyday wear. This treatment

preserves the linen's organic tactility while enhancing its practicality, ensuring it performs beautifully in busy, lived-in spaces. An understated neutral with soft golden undertones, Sandstone carries the warmth of natural linen. Subtle variations in the weave catch the light in shifting tones, creating a gentle, sun-washed effect.

Martindale: 100,000
