Arbor Credenza

FG008418

The Arbor credenza gives a delightful sense of a tree. Perhaps mankind's greatest friend in our ancient story, trees have provided shelter, protection and warmth. In our credenza, this noble friend is made with some of our cherished materials; raised on sculpted and textured bronze legs that branch out to hold the cabinet, made from walnut and decorated with glowing, leaf-like straw marquetry. The drawer and door pulls are bronze, opening up a warm walnut interior and mirrored compartment.
